

Cord Operated  
Curtain Track Systems

## Cord Operated Curtain Track Systems

The simple combination of high grade plastic with precision engineered aluminium results in the most efficient curtain tracks available.

Cord operation avoids the need to handle the curtains and easily controls heavy or inaccessible curtains.

### Systems

### Description

Silent Gliss System 3000	Light – medium weight curtains. Can be forward or reverse bent. Can be corded at both ends by using an intermediate pulley. All stacking variations are possible. Ceiling and wall fix.
Silent Gliss System 3840	Light – medium weight curtains. Can be forward or reverse bent. Can be corded at both ends by using an intermediate pulley. All stacking variations are possible. Ceiling and wall fix. Suitable for Wave and Wave XL.
Silent Gliss System 3900	Medium – heavy weight curtains. Can be forward or reverse bent. Can be corded at both ends by using an intermediate pulley. All stacking variations are possible. Ceiling and wall fix. Single, pair or multiple pair stack.
Silent Gliss System 6200	Heavy weight curtains. Can be forward or reverse bent. Can be corded at both ends by using an intermediate pulley. All stacking variations are possible. Ceiling and wall fix.
Silent Gliss System 6370	Very heavy weight curtains. Can be forward or reverse bent. All stacking variations available. Ceiling and wall fix.

### Silent Gliss 3000

Smart, strong and versatile.

### Silent Gliss 6200

An elegant system used for heavy duty, stage and other use.

### Silent Gliss 3840

Exceptionally attractive ceiling fix track.

### Silent Gliss 6370

Discreet heavy duty track with twin channel for infinite overlaps.

### Silent Gliss 3900

Strong but elegant, the most efficient system on the market.

	●	●	●	●	3982			200				●	●	●	●		●	●	●	3900
	●	●	●		6210		5.8	400				●	●	●		●	●	●	6200	
	●	●	●		6371		5.4	500				●	●	●	●	●	●	●	6370	

 System 6120 is also a cord drawn track but with a round profile; please refer to the Poles section of the catalogue for more information.

 Light-weight applications

 Medium-weight applications

 Heavy-duty applications

# Stacking Possibilities

# Comparative load graphs for medium weight systems

\* With 3208 Pulley, performance is considerably enhanced. For multiple bends weight given for heading hanging below profile

## Comparative load graphs for heavy weight systems

————— 3900

----- 6200 with 6098

----- 6370 with 6098

The tables should be used for guidance only - if there are borderline cases please ask our Sales Co-ordinator or Technical Representatives who will be able to solve your individual problems.

If pencil pleat headings are used deduct at least 25%, if curtain heading hangs completely below the track some improvement can be expected. If in doubt please ask.
