

Decorative Curtain Poles

This brochure contains colour illustrations and a summary specification for each of the systems in this product group to assist your clients in making their choice.

The Metropole range of curtain poles are functional, beautifully finished and unashamedly sleek in appearance. Available in diameters of 23mm, 30mm, 36mm and 50mm they are finished in a range of metal and wood effects. This range combines excellent functionality with intricate and stunning finial, midial and hold-back designs. The range is available in eight different moods ranging from traditional to contemporary. For more information on the wide range of pole accessories please consult the Metropole brochure from Silent Gliss.

Bay Window or Curved Applications

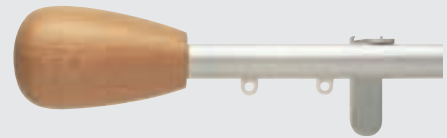

All Metropole systems can be bent to suit bay window or other curved applications. Forward or reverse bent, normally any standard window radius can be achieved.

Silent Gliss 1003M

For the ultimate in pared down minimalism.

The Mini-Metropole is the smaller diameter option of this range at 23mm. It is hand operated and available in white, chrome, silver, black, and gunmetal. The Mini-Metropole can be coordinated with a selection of delightful finials and midials in a range of designs and materials from beads to glass. For light to medium weight curtains. Can be bent to a radius of 150mm.

▲ 23mm Silver pole with beech paddle finial
